

# WHY CHOOSE A BOND FUND OVER A GIC?

MACKENZIE  
Investments

During times of market volatility, the natural tendency for investors is to shift their mindset from capital growth to capital preservation. Often, capital preservation comes in the form of cash or cash alternatives such as GICs. GICs can be appealing because of their guaranteed nature. What most investors pay little attention to is that peace of mind often comes at a cost – an *opportunity cost*.

With GICs, you may be locking in a return that is lower than many other relatively low-risk investments. There is another option that can help preserve capital, provide income and outperform GICs in the long run: a diversified portfolio of high-quality bonds.

Here's why:

## BONDS HAVE OUTPERFORMED GICs OVER THE LONG TERM

### Bond Returns > GIC Returns

Difference between rolling 2yr excess total return of FTSE Canada Universe Bond vs. Average 1Y GICs

Source: Bloomberg, Morningstar Direct. As of October 31, 2020, the rolling return data in this chart has been lagged to reflect the start date of the 2Y rolling period so it aligns with the Bank of Canada policy rate at that time.

## GICs NEVER GO DOWN, BUT THEY NEVER GO UP EITHER

When markets are stressed, bonds have historically counterbalanced equity volatility in a portfolio. In hard times, bonds can serve as shock absorbers for an investor’s portfolio. GICs may play a similar role, but as the data suggests, they don’t do it as well as bonds. A diversified bond portfolio can be a much more effective cushion during times of equity market volatility than GICs.

### Fixed Income and GIC Returns During Equity Market Volatility

In most quarterly periods when equities were down, the total return on a broad basket of bonds was positive – and significantly more positive than the interest income earned on a GIC during that period.

To learn more, speak to your LBC Financial Services Representative.

An investor should carefully consider a fund’s risks, investment objectives, fees, and expenses before investing. This piece is meant for illustrative purposes only and should not be construed as giving investment advice. Please talk to your licensed LBCFS Mutual Fund Representative about your investment options and to obtain a copy of a prospectus or fund fact. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments and the use of an asset allocation service. Please read the prospectus before investing. Mutual fund securities are not covered by the Canada Deposit Insurance Corporation or by any other government deposit insurer. There can be no assurances that the fund will be able to maintain its net asset value per security at a constant amount or that the full amount of your investment in the fund will be returned to you. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. Mutual funds are distributed by LBC Financial Services Inc. (“LBCFS”). LBCFS is a wholly owned subsidiary of Laurentian Bank of Canada and is a corporate entity separate from Laurentian Bank, B2B Trustco and Mackenzie Investments. The funds offered by LBCFS are part of the Laurentian Bank Group of Funds, managed by Mackenzie Investments.
